

Claude's Gmail connector: data governance by plan

<adrian.lumley />

What the connector trains on, where data lives, and how long it stays - sourced to Anthropic's own docs.

	Free	Pro	Max	Team	Enterprise
Trains on connector data (the raw pull)	No	No	No	No	No
Trains on connector-derived chat content	Only if opted in	Only if opted in	Only if opted in	No	No
Default data retention	30 days (5 yrs if opted in)	30 days (5 yrs if opted in)	30 days (5 yrs if opted in)	Not publicly specified	Indefinite until an Owner sets a custom period
Who controls retention	You	You	You	Not documented	Owner / Primary Owner
Zero data retention available?	No	No	No	No	API & Claude Code only, not the chat app
Memory from chat history	On, user-controlled	On, user-controlled	On, user-controlled	On, individual control only	On, Owner can disable org-wide
Is incognito private from your org?	Yes (personal)	Yes (personal)	Yes (personal)	No - in org exports	No - exports + Compliance API

Last verified June 9, 2026 against Anthropic's primary documentation. Independent analysis - not legal advice, does not speak for Anthropic.
